4. Roadside Rescue applies to the specified insured Vehicle covered by the Car insurance policy and covers any licensed person driving the specified Vehicle.

Roadside Rescue service entitlements

6. With Roadside Rescue, you will receive assistance for:
 - Towing after a breakdown
 - Jump starting and flat battery
 - Minor roadside repairs
 - Motorist technical advice
 - Delivery of emergency fuel
 - Flat tyres
 - Key lockout service
 - Other Roadside Rescue services such as arranging a windscreen/glass referral or an emergency taxi or contacting family members, friends, or business associates to notify them of possible delays.
7. Our provider will assist you subject to the following conditions and exclusions:
 - 7.1 **Coverage** – you or anyone else driving the insured Vehicle covered by the Car insurance policy.
 - 7.2 **Five (5) callouts** – Up to five (5) callouts in any period of insurance. A \$50 fee applies for each extra callout.

- 7.3 **Mechanical breakdown** – We will dispatch a provider to tow/transport the Vehicle to our nearest preferred repairer or safe location. If you elect to have the Vehicle towed/transported to a place of your own nomination and this distance is greater than would have been to our preferred repairer or safe location, the additional charge of \$3 per kilometre for the excess kilometres will be at your cost. If a second tow is requested following storage at the preferred repairer or place of safety, this cost will be your responsibility.
- 7.4 **Taxi** – provision of a taxi where the Vehicle is non-operational due to a mechanical defect will be at your cost.
- 7.5 **Towing to safety** – transportation of a Vehicle that is immobilised or not safe to drive to our nearest preferred repairer or place of safety. The Vehicle must be 3.5 tonnes GLW or less and on a legal road or on a property that our provider is authorised to access and can do so safely with a two-wheel drive towing vehicle.
- 7.6 **Towed Vehicles** – If you are towing a boat, trailer, or caravan when the Vehicle broke down these may also be towed/transported to the nearest preferred repairer or place of safety, however this will be at your cost.

If the Vehicle cannot be jump started due to the battery requiring replacement, the Vehicle will be referred or transported to the nearest preferred repairer. All costs relating to the battery will be charged to you directly by our provider.
- 7.8 **Minor roadside repairs** – Our provider may be able to perform minor mechanical repairs where it is possible and safe to do so. However, if major parts or factory diagnostic equipment is required then the Vehicle will be transported to the nearest preferred repairer. Costs for any parts required are your responsibility.
- 7.9 **Motorist technical advice** – technical and mechanical advice in relation to the Vehicle operation, any safety warnings or lights that may appear or technical and mechanical information regarding the Vehicle will be provided through the 0800 10 11 12 helpline.

- 7.12 **Out of charge (EV)** – We will provide a mobile electric vehicle charging service to give your vehicle enough charge to reach the nearest charging station or send out a transportation provider to transport/tow the Vehicle to the closest charging station, our nearest approved repairer or place of safety. You must pay for the use of the charging station.
- 7.13 **Flat tyres and fitting of a spare tyre** – We will dispatch a provider to inflate a flat tyre (where possible) or fit the Vehicle's spare tyre if you have a flat or damaged tyre, provided that the spare tyre is suitable for use with the Vehicle. This includes key cutting and replacement keys and locks, loss, or damage to Vehicle, as a result of recovering the keys from the Vehicle at your request.
- 7.15 **Friends and Family Contact Service** – when a breakdown occurs, we can connect your call to family members, friends, or business associates to notify them of any possible delays.
